

Challenge Scholars Dream Fund

GRANT APPLICATION GUIDELINES

We believe that students who have strong relationships with caring adults, access to high-quality teaching and learning, support as they navigate academic transitions, and access to financial resources will be successful in their journey to and through college or career training. We also believe in amplifying community voice in decision-making and accountability.

We want to fund projects that support these outcomes:

- **Strong relationships between students, families, and community partners:** *Students and families feel encouraged, have a sense of belonging, and have help accessing academic and non-academic supports.*
- **Supportive transitions into middle school, high school, and college or career:** *Students learn the formal and informal rules that contribute to success in new environments and have meaningful opportunities to explore academic and career pathways.*
- **High-quality teaching and learning:** *Students have academically rigorous coursework, engaging classroom experiences, and their unique learning needs are met.*
- **Financial stability:** *Students have fewer financial and economic burdens during college, allowing them to focus on completing a degree or credential.*
- **Mutual accountability:** *Education efforts in the community are coordinated and aligned around a shared value of equity, reflected in strong collaborations and partnerships.*
- **Community-led:** *Systems, programs, and interventions are informed and shaped by the voices, preferences, and perspectives of students, families, and community members.*
